Israel Institute
of Technology

If you're a PhD Graduate in
Life Sciences and are interested in
a Post-Doctoral Fellowship abroad,
we have a proposition for you:

A Fellowship For Post-Doctoral Research Abroad from **Integrated DNA Technologies**

For the 2016/17 Academic Year

● **Research in the field of Life Sciences, a priority for Molecular Biology.**

● **An annual stipend of \$25,000 USD +**

\$15,000 USD (or local equivalent) for purchases from the funding company (to be paid directly to the university where the post-doctoral research is conducted).

● **Basic application requirements:**

- The candidate is an Israeli citizen.
- The candidate must have a PhD (or final stages) from a recognized Israeli university.
- No more than two years after receipt of PhD degree.
- The candidate has published at least 4 articles as first author in leading magazines in his/ her field, or has published an article as first author in a magazine with an IF of more than 20.

● **Required documents** (must all be in English):

1. A full curriculum vitae.
2. A list of publications.
3. A recommendation letter from the candidate's PhD mentor.
4. Two additional recommendation letters.
5. A letter of invitation for continuing studies abroad.
6. A detailed post-doctoral research plan (1-3 pages).

All above mentioned documents will be sent via e-mail – in PDF format – to Ms. Ayellet Katalan at kayellet@technion.ac.il (phone no. 04-8292560), no later than April 1, 2016. Recommendation letters should be sent by the recommenders via e-mail no later than the mentioned date.
